

## Senior Crew Conference at training school in Qingdao, Shandong

To enhance communication among our onshore and offshore teams, each year we organize at least 2 conferences in our training centre in Qingdao for senior deck officers and office staff to exchange their views. Crew members also have training sessions covering key maritime areas such as insurance and security issues to keep updated with latest industry requirements.

In 2018 we held 2 conferences (27-29 May, 13-15 Nov) so that deck officers had a chance to receive maritime training and mingled with teammates offshore.
